Welcome to the Transportation Needs, Barriers, and Solutions Survey

You are invited to be part of a research study. Your participation is voluntary and it is entirely up to you to decide whether you want to participate. Even if you decide to be part of the study now, you may change your mind and stop at any time.

If you agree to take part in this study, you will be asked to complete an online survey that asks questions about your recent travel experiences, travel-related challenges, satisfaction with transportation options, daily activities, and overall well-being. The survey will also include questions about your demographics, transportation preferences, access to destinations, and travel behavior.

We expect that this study will take about **15–20 minutes**. The survey involves no significant foreseeable serious risks. We ask that you try to answer all questions; however, if there are any items that make you uncomfortable or that you would prefer to skip, please leave the answer blank. Your responses are anonymous.
